To Whom It May Concern:

Google is pleased to inform you that Sai Krishna Kalyan has successfully completed Google Summer of Code 2017, a program which connects students with mentors for 3 months to develop open source software. Each year many students apply to participate with only a portion of them being accepted into the program, and not every student finishes the program successfully.

Sai Krishna was accepted into the program by, and developed open source software for, Apache Software Foundation beginning May 30, 2017 and ending on August 21, 2017. Over that period, they passed each of the three evaluations conducted by their mentor.

More information on Sai Krishna's project can be found at:  
<https://summerofcode.withgoogle.com/projects/6453165883916288>

Sai Krishna worked from home on their project and was not required to visit either Google or Apache Software Foundation's offices. They received a stipend of 6600 USD for the project. Although Sai Krishna was not directly employed by Google during Google Summer of Code 2017, the program was administered by Google from our corporate headquarters and Google acted as the host organization for the duration of Sai Krishna's participation.

Should you require any further information, please do not hesitate to contact our Google Summer of Code program team via email at [gsoc-support@google.com](mailto:gsoc-support@google.com).

Best,

Joshua Simmons  
Google Summer of Code Program Manager
